

2012 EDITORIAL PLAN

January

Transportation (Focus)
Sensors & Mems (Report)
Low Footprint Rtos (Embedded)
Digital Oscilloscopes (Test & Measurement)

February

Smart Appliances (Focus)
Multimedia ICs (Report)
Power Semiconductors (PE)

March

Display & Touch (Focus)
Programmable Logics (Report)
Single Board Computer (Embedded)
Wireless Test (Test & Measurement)

April

Smart Metering (Focus)
Connectors & Emech (Report)
Electric & Hybrid Vehicles (PE)

May

Aerospace & Defence (Focus)
SoC Integration (Report)
Natural User Interfaces (Embedded)
Protocol Analyzers (Test & Measurement)

June

Car Infotainment & Safety (Focus)
Leds & Drivers (Report)
Power Management ICs (PE)

July-August

Nanotechnologies & Meletronics (Focus)
Electronic Design Automation (Report)
Rf & Sensor Technologies (Embedded)
Data Acquisition (Test & Measurement)

September

Distribution (Focus)
Analog ICs (Report)
Renewable Energy (PE)

October

Medical Electronics (Focus)
Memory Technologies (Report)
Small Form Factor Boards (Embedded)
Modular Instrumentation (Test & Measurement)

November

Solid State Lighting (Focus)
Microcontrollers (Report)
Power Supplies (PE)

December

Robotics & Automation (Focus)
Passives Components (Report)
Modeling & Simulation (Embedded)
Signal Generators (Test & Measurement)
